

Tabitha Luxmoore Styles

Disruptive Tech Partnerships Lead

As lead on our Disruptive Tech Partnerships at Fox Williams, I support our high-growth clients and contacts with their investment strategy and go-to-market strategy.

I work alongside Partners and Fox Williams colleagues as a separate, added-value role drawing on my experience in Venture Capital, Accountancy & Wealth Management (running a fundraising program for founders and investors) and having worked in 3 start-ups (Fintech & FMCG). I have also worked abroad for a Tech Accelerator in France and worked for an Angel Investment Network in the UK.

I work cross-departmentally focussing on scaling businesses, and supporting them in their growth challenges. Typically these are conversations focussed on fundraising and sales/marketing strategies. Alongside my day to day role, I run a collaboration with a VC fund. The program is called Capital & Counsel where we create investment workshops and legal clinics for founders, and networking for investors.
